Dear Mr. Brown:

Your letter of September, 1984 was forwarded to two old addresses before it finally reached me. We have moved twice since the Lake Shore Drive address.

I am delighted that you want to begin an active group.

The national organization is composed of a board, officers, and a staff of three, plus magazine editors. We depend upon the chapters to provide much of the "action" as grass roots groups.

Chapter members and officers are right there where the local area activities are occurring. They are best able to put immediate effort into action. National H.E.A.L. supports that effort.

We have a number of groups who are "fighters." All we ask is that they maintain sufficient caution to avoid legal suits of any kind.

The very best of success in whatever endeavor you undertake.

Sincerely,

Esther M. Schenck  
President
