To Whom It May Concern:

It is my understanding that Chris Brown has applied for the position of Program Director.

I have found him to be competent and resourceful. He is aware of community issues and is concerned with helping people. He finds ways of resolving their community problems. When working with community groups, Chris doesn't impose his perceptions on them, rather he ensures that the views of the community remain theirs. Through his involvement with groups he has developed an understanding of Community Development which has increased his ability to relate with community groups.

While working with Chris is co-producing the program, "Getting It Together", he has been creative in his thinking for the program's development. He has been able to organize the shows successfully.

If I could be of any assistance or provide any more information, please feel free to contact me at Algonquin College, Centre for Community Development, 1644 Bank Street, Ottawa, K1V 7Y6, 731-7193.

Yours truly,

Bill Overall  
Community Development Worker  
on behalf of the Team
